2888 (Rev. 1-81)

Item 12. Remarks

Portions of the Applicant's vested water right from Angel Creek will be diverted by this pipeline. Due to the installation of this pipeline it is estimated that substantial amounts of water have and will become available because of no ditch loss. This application is being filed on those waters that are being realized due to lack of ditch absorption, and will be used to place additional acreage under cultivation.

Existing vested diversions and ditch systems will still be employed to service those acreages not supplied by the pipeline system.

The filing of this application is not intended to waive the Applicant's rights to a vested right on this source.

Please send copies of all correspondence to undersigned agent and to Stewart R. Wilson, P.O. Box 389, Elko, Nevada 89801
